## Description

Villa Irene is a luxury holiday home with stunning panoramic views of the breath-taking platinum coast. With four en-suite bedrooms and a large living room with extended covered patios that lead onto a large swimming pool, this villa is the epitome of Caribbean living.

The house has been built to capture the cooling winds and all the bedrooms have air conditioning. As you sit on the patio to enjoy a glass of wine or have a barbecue dinner, you will enjoy the stunning views of the west coast.

The Master bedroom has a four poster king bed with an en-suite bathroom and plenty of wardrobe space. Along a short corridor there is a bedroom with queen bed and an en-suite bathroom. The third bedroom is a twin bed room but can also be made into a king bed. The fourth bedroom is suitable for children as it has four large bunk beds, equipped with a television and an en-suite bathroom.

All bedrooms are air-conditioned and spacious. The kitchen is modern with views of the coastline and there is an adjoining laundry area. There is an outdoor patio that overlooks the infinity pool and the open plan layout allows for great entertaining and barbecues.

A short 7 minute drive takes you to the heart of Holetown where there is shopping, supermarkets, restaurants and a choice of beaches to relax on! The nearest beach is Thunder Bay, a short drive down the hill.

Villa Irene is the perfect holiday home for a small family or group of friends looking to relax in the sun!

Patricia the house keeper comes in three days week, and she makes sure you have everything you need.
