List Price: US\$ 300 - 800

Description

This spacious Plantation property sits in an elevated position with a scenic outlook down to Carlisle Bay. The house is substantially built of coral stone external walls and enjoys large rooms and reception areas. Located about 10 minutes from Warrens and close to Jack in the box gully in St. Thomas, the immediate surroundings are green countryside with a pleasant outlook. The property is set back from a quiet country road where its access is shared with an animal feeds outlet. The location and setting would very much suit a green conscious or sustainable type of business.

The property is being offered for rent either in its entirety to one tenant or in parts to several tenants who would then have separate offices with a shared kitchen, lunch room, common areas and boardroom access.

The Complete space comprises
